

# MarkSmart Installation Instructions

## 1. LOCATE STARTING POINT (Corner of Field)

Drive Installation Tool into ground with hammer or rubber mallet.

Gently tap Installation Tool from right to left to loosen & remove from ground.

## 2. INSERT GROUND SOCKET

Place Ground Socket in position. Set "Socket-Setter" in place as shown.

Using Rubber Mallet, tap Ground Socket into hole until socket is flush with ground surface.

If using heavy metal hammer, place wood block over "Socket-Setter" before striking.

## 3. MEASURE REMAINING LINE INTERSECTIONS AND CRITICAL LOCATIONS

Insert ground socket at each location.

## 4. NOW YOU'RE READY TO STRING LINES AND...

Insert lining peg into ground sockets and attach string.

Overhead View

With MarkSmart... you're always on center.

## ...JUST CONNECT THE DOTS!

Follow string lines to paint field.

We suggest painting end & sidelines to complete boundaries, then do interior lines.

## NOW... your field is complete and your measuring days are over.

Add game day markers and you're ready to play!
